REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach in combination as claimed a probe for insertion into molten metal to measure particulates having a second elongate member electrically connected to the gas passageway at a first end. The second member extends into the chamber for engaging metal within the chamber. A chill block is attached to a second end of the second member, where the second member has a second length such that a chill block is spaced from the liquidus depressing material in the chamber providing for a precise count of the inclusions within a particular precise volume of the molten metal.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Walter Benson whose telephone number is (571) 272-2227. The examiner can normally be reached on Mon to Fri 6:30 AM to 4:00 PM.
